FISHERMAN'S WHARF AREA
CALIFORNIA

CONGRESSIONAL DISTRICTS: 6th District, Rep. Lynn Woolsey; 8th District, Rep. Nancy Pelosi

PROJECT DESCRIPTION: The project provides a protected harbor adequate to serve the existing fishing fleet, and protection to the Federally owned historic fleet (National Park Service) at Fisherman's Wharf, San Francisco, California. The project was originally constructed in 1988 and includes a 1,509 foot long solid concrete sheet pile breakwater located along the west side of Pier 45, and a 150 foot long segmented concrete sheet pile breakwater located on the northeastern side of Pier 45.

FISCAL YEAR 03 BUDGET: \$0

PRESENT STATUS: Scour action that occurred along the toe of the detached breakwater was corrected in FY 92 by placement of 5,400 tons of rock and filter material. Subsequent scour protection has not been necessary.

FUTURE EFFORTS: Annual inspections are conducted to monitor scouring action.
